innovative thinking - premium design - exclusive functions

Dermalife™ Spa-Oceana

Innovative thinking, premium design and exclusive functions are the driving forces behind the Dermalife™ family of multi-sensory spa systems. They represent a holistic system of balance and restoration creating a revolutionary improvement for spa and skin care treatments. Dermalife™ capsules allow you to offer clients truly ancient spa solutions to modern concerns.

Dermalife™ spa systems are stunning in design and provide the perfect spa environment that is easy to use. The powerful synergy and variety of their functions will enable your spa/clinic to offer each individual care adapted to their needs, lifestyle and desires.

For centuries, the famous exclamation of the Roman Emperor Nero, "**Sanitas Per Aqua**" (SPA), meaning "**Health Through Water**", has symbolized people's instinctual belief and practice **in water's curative and transforming powers.**

Spa-Oceana™ is a state of the art multi-sensory system for body treatments and hydrotherapy services. Spa-Oceana™ is the first capsule in the Dermalife family of spas to combine Hydrofusion™, infrared heat and steam, with a Vichy shower system inside a powerful air-jet massage hydrotherapy tub. Spa-Oceana™ calls upon the natural healing powers of water, steam, heat and massage for unlimited restorative, customized spa services.

Sanitas Per Aqua

"**Become one with water**" is the culmination of SPA - It is clear that the Dermalife™ Spa-Oceana™ epitomizes the concept of SPA; aiming to restore total body wellness through a myriad of services tried and tested over the ages. "**Taking the waters**", as the Victorians referred to spa treatments encompassing a wide variety of therapies, Dermalife™ Spa-Oceana™ embraces the most popular and pampering hydrotherapy services available today; steam, mist and hydro massage.

Dermalife™ Spa-Oceana™ combines the breakthrough concept of **Hydrofusion™**, the blending of 2-heat technologies - **steam & far infrared heat** with true **hydro-massage therapy**, via Vichy shower and underbody water jet massage, creating an unparalleled spa experience in a personal hydrotherapy tub. With the enrapturing sensation of the advanced LED based **ColorBath™ Chromotherapy** System, mixing mood with **aromatherapy** and **sound**, Dermalife™ Spa-Oceana™ allows you to offer an invigorating and blissful collection of skin, face and body care treatments while enhancing the best traditional spa services.

Dermalife™ treatments offer an overwhelming relaxing sensory experience and feeling of total well-being by incorporating muds, seaweeds, gels, wraps, masks, sprays, salt-glow and extracts from natural sources in a high-tech environment capsule. Vitamins and Minerals can be added to the **hydromist** system so nutrients are transdermally introduced into any spa session.

Dermalife™'s future-forward services create a significant advantage and point of difference for your business and clients in a continuously growing and competitive market as well as a reward for your consumers' loyalty with its sensational value added services.

At the forefront and in line with market trends, Dermalife™ Multi-Sensory Spa Systems are the perfect addition to **Destination Spas, Amenity Spas (Hotels, Golf Country Clubs, Tennis Resorts), Club/Fitness Spas, Day Spas and other beauty/medical** related facilities looking to offer sensational spa services.

features & benefits

The synergy of non-invasive, natural therapies and the methods used in Dermalife™ systems quickly restores the vitality of the body and mind paving the way to a new, positive and healthy way of living.

- **Hydrofusion™:** This extraordinary engineering breakthrough creating a single blended energy force through the harmonization of far infrared heat and steam, allows you to use both of these natural energies individually or simultaneously. Increased body temperatures cause the skin to perspire to keep the core temperature stable (thermo genesis), which enhances cleansing and detoxification. It also increases oxygen supply to the blood stream and tissues, resulting in improved skin nutrition and rejuvenation. Together, these elements join forces to optimize body cleansing, moisturization, and the penetration of nutrients producing advanced skin care.

- **Steam:** Moist heat is gentler on the body than the dry heat of a sauna because it softens the skin as it opens pores and stimulates perspiration, encouraging elimination of toxins. Herbs or essential oils infused into steam will enhance the results. Dermalife™ systems feature adjustable temperature steam for body and skin therapy (up to 48°C/118°F).

- **Hydrotherapy Tub:** Spa-Oceana maximizes hydrotherapy in a 53 gallon, personal air-jet tub. 8 hydro-bath back massage jets, 8 side massage jets and 4 foot massage jets relax and invigorate clients in this unique hydrospa setting.

- **Infrared:** The infrared emitters are engineered to produce comfortable heat within the far infrared category, which is the same frequency level as our own body heat (peaking at 9.6µm) and thus in tune with our own energy system. Research indicates that infrared penetrates the skin layers more deeply than any other heat source. Deeper tissues are heated as blood is circulated through the body. The end result is that body temperatures are comfortably elevated and blood and lymphatic circulations are increased.

- **Translucent Exterior Shell:** Spa-Oceana™ constantly changes its look as it reflects and glows from the ambient surrounding light or its own Colorbath™ Chromotherapy system via the pebble-grained, translucent shell, making it a beautiful and stunning focal point for any spa decor.

- **Vichy Shower System:** The state of the art dual Vichy shower body spray system features 10 above the body showers with adjustable spray direction for a relaxing total-body massage. Three pre-set Vichy shower programs are available as well as a Scottish Shower mode, alternating hot and cold jets.

- **Hand shower:** An indispensable feature to rinse products from your client's body and for cleaning the interior of the unit.

- **Mist:** A light mist is instantly dispersed over the body via the touch of a button; if desired, you can add minerals and vitamins to the mist creating an added treatment and nutrient similar to hot springs therapies.

- **Vitamin/Mineral System:** Dispenses nutrients such as vitamins and minerals into the mist stream allowing skin to transdermally drink up the nourishment and protection of powerful anti-oxidant vitamins and minerals. The mist system can have the same powerful benefits as a mineral springs bath.

- **Foot Spray:** Soothe, revive and refresh aching feet with two foot massager jets that spray water gently over the feet for a special spa experience.

- **Vibratory Massage Bed:** Engage all of the body's systems to work in unison toward the goal of systemic harmony. Cradling the body, the ergonomically-designed support bed features a patented massage vibration system featuring continuous and pulsating vibration to stimulate the body's physiological systems.

- **Aromatherapy:** Dermalife™ Spa-Oceana™ features two unique reservoirs that vaporize aromatherapy and herbal extracts to awaken olfactory senses and to enhance results and enjoyment. Pure essential oils and herbal essences stimulate the body through the sense of smell and through their ability to permeate the skin. Aromatherapy essential oils and herbal extracts may be combined to achieve customized results.

- **Chromotherapy:** Spa-Oceana™ uses state-of-the-art digital lighting technology (LED's) and multiple, strategically located chromotherapy light stations to generate a variety of rich and atmospheric colored lights. Emanating from the translucent pebble-grain shell, the mood enhancing chromotherapy glow will put your client in a total state of harmony and balance.

Our bodies react to color in quantifiable, physiological ways. By combining color treatments with other spa services, their effects are dramatic. Each one of the Spa-Oceana™'s pre-set programs features a different Colorbath™ with random color changes and multicolor cross fades made up of all the colors of the spectrum, from soothing and relaxing, to balancing and energizing.

- **Deluxe Color LCD Display:** Operated via a touch button control panel, the sleek multi-language display offers 10 pre-set and 1 custom programs as well as various upgrade options (including Video-DVD applications).

- **Stereo ready:** For the ultimate relaxation experience, Spa-Oceana™ features one 150 W waterproof speaker which can be easily connected to any audio source. A headphone jack is also included.

treatments

Spa-Oceana™'s state of the art design allows you to offer numerous wellness treatments for your clients. Offering these treatments shows your commitment to the well being of your clients. Spa-Oceana™'s 53 gallon hydrotherapy treatment tub supports various body care treatments involving masks, mud masks and sea salts from any product range. A sample of some of the most popular treatments you will be able to offer with Spa-Oceana™ include:

- **Hydrotherapy:** offer a wide range of body care treatments with four pre-set hydrotherapy programs that control 8 back massage jets, 8 side massage jets and 4 foot massage jets. Hydrotherapy is the therapeutic use of water in its different temperatures and physical states, such as water, steam, gas and ice. Spa-Oceana™ 53 gallon hydrotherapy system will not only help to relieve aches and pains, it will also assist the body in eliminating wastes, stimulating the metabolism and immune system.

- **Weight Loss/Detoxification/Cellulite:** All of the products, equipment and treatments available for reducing the appearance of cellulite and slimming the body may be complemented and improved with Spa-Oceana™ treatments. Effective cellulite reduction and slimming can only be performed by vigorously increasing circulation, stimulating metabolism, detoxifying and eliminating excess fluids. Used in conjunction with products containing cellulite-combating ingredients, Spa-Oceana™ is a vital link to obtain the results your clients are looking for.

- **Re-Mineralizing/Moisturizing/Hydrating:** Body wraps and mask treatments begin by eliminating impurities through exfoliation and second through the application of products containing essential oils, herbs, muds, clays, seaweed or algae. These natural ingredients are rich in vitamins and minerals and help replenish lost nourishment in dry, damaged or aging skin. With the added boost of an effective heat and hydrotherapy treatment, these products will leave even the most damaged or congested skin fresher, cleaner, more hydrated and glowing with health.

- **Anti-aging:** The skin is our body's largest organ. Healthy skin acts as a protective envelope for the body and is vital to maintain overall health and beauty. Anti-aging treatments are dramatically enhanced with Spa-Oceana™. The intensive hyperemia, moisturizing, toning, improved elasticity and total skin nourishment provided by Hydrofusion™ stimulates the development of collagen, creating a soft, youthful skin texture. By combining the relaxing, steady warmth and stimulating hydrotherapy experience with seaweed or mud applications, the absorption of the anti-aging and detoxifying ingredients is greatly heightened, leaving the skin supple and glowing.

A high-angle, close-up photograph of a woman with long blonde hair lying in a white hot tub. She is wearing a white bikini top and has her eyes closed, appearing to be in a state of relaxation. The water is bubbling and has a warm, golden-brown tint. In the upper left corner, the text 'DermaLife™ Spa-Oceana' is overlaid in a light grey, elegant serif font. The hot tub's white rim and a chrome faucet are visible at the top of the frame.
