# OxyOasis™

Advanced Oxygen Facial System

## The Power of Science Performance Skincare™

A dual-modality advanced facial system for oxygenated skincare. OxyOasis™ provides topical oxygen applications utilizing Oxygen Botanicals™ skincare products.

OxyOasis™ system includes the renowned Oxygen Botanicals™ professional skin care product line. These oxygen infused skin care products deliver exactly what they promise...appealing and vibrant skin. Oxygen Botanicals™ products are formulated to maximize OxyOasis™ protocols and complement the oxygen facial. The professional products (cleansers, toners, exfoliants and masks), activators and serums allow customizable and precise treatment of skin concerns while effectively enhancing the technologies of the equipment.

### Oxygen is Vital for the Life of Your Skin...

Like all living things, skin needs oxygen to survive, reproduce and regenerate. In younger skin, this process is very efficient, but as we age, the micro capillaries degenerate and skin does not receive the nourishment it needs. As a result, the metabolism of our skin cells slows down, collagen and elastin content are reduced and fine lines, discolorations and wrinkles begin to appear. Sun exposure, air pollution, extreme hot and cold variances, diet fluctuations and day-to-day stress all affect the condition of skin.

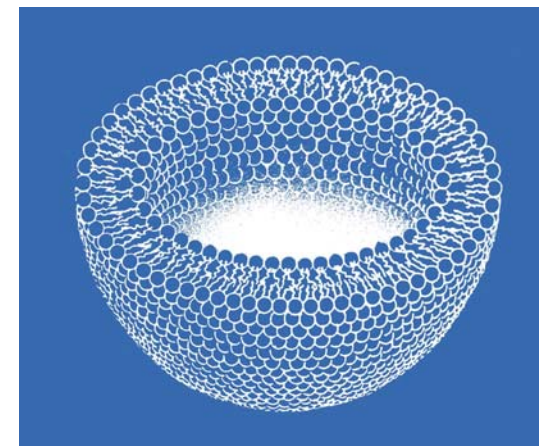

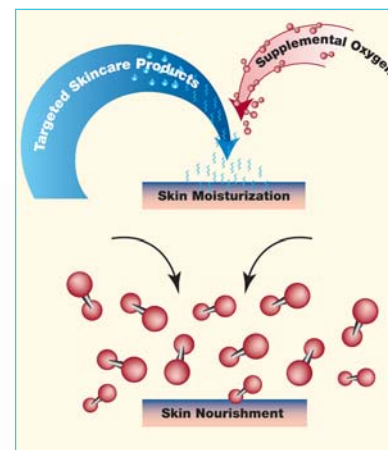

### OxyOasis™ Spray

The unique OxyOasis™ applicator allows for the simultaneous application of Oxygen Botanicals™ products and oxygen. The exclusive OxyOasis™ oxygen spray supplies the skin with a topical spray of oxygen and targeted cosmetic ingredients.

### OxyOasis™ Facial System

- Delivers oxygen to the skin
- Refreshes and rejuvenates the skin
- Revitalizes the skin

### Catezome Cross-Section

Cross-sectional view of unique catezome (advanced liposome delivery system) structure that keeps pure oxygen stable and effective while facilitating time-released delivery of oxygen, vitamins and nutrients.

### Oxygen Botanicals™ Features...

- Pure, non-chemically derived oxygen
- Time-released formulas
- Water-based products
